

The Medical Home and Physician Payment Reform

October 17th, 2007

Resources & Background Material

The concept of the medical home is receiving a lot of attention in health care circles as a way to provide support for comprehensive primary care to better manage chronic disease and improve health care outcomes. The medical home is not a place, but a way to provide comprehensive care to improve overall care and quality.

This document lists materials and resources that provide general background on the issues as well as highlighting the multiple perspectives held by a variety of stakeholders. The presentations are copyrighted; if you would like to use information from them please contact the presenter.

Note: Bolded documents were provided to in-person participants.
